Art Unit: 3742

The Examiner acknowledges Applicant's submission of the amend filed 8/21/06. Claims 2-13, 15-19, 21, 22, 29, and 30 are pending.

Claim Rejections - 35 USC § 112

Claim 19 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claim recites a "side of the contact plate remote from the... PTC elements is covered by a polymer ceramic or..., whilst the rest of the frame is made..." The frame structure has not been established in claims 15 and 16, from which this claim depends, to provide antecedent basis for a "remote" portion and "the rest of the frame," rendering the claim unclear.

Claims 21 and 22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The penultimate line of claim 21 recites "fractionally," which is not understood.

Claim Rejections - 35 USC § 102

Claims 15-18 and 30 are rejected under 35 U.S.C. 102(b) as being anticipated by US Pat. 5270521.

Referring to Fig. 4 and col. 4, lines 20-60, especially, US'521 discloses a heating device comprising contact plates 24, an insulated holding frame 25 and insulating film 26 both consisting of resin (which includes plastics); where the holding frame secures the PTC element on the contact plates, and resin film 26 is inherently "adheres" to the contact plate on which it is formed, as claimed.

The projections out of the plane of the contact plates, recited in claim 30, are equivalent to elements 29, 29, which serve to hold the PTC elements in place, exactly as claimed.

Allowable Subject Matter

Claims 2-13 and 29 are allowed.

Claim 19 would appear to be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Claims 21 and 22 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Applicant is strongly urged to review the prior art cited but not applied when replying to this Office action, with particular attention to those patents disclosing the use of adhesives.

Art Unit: 3742

Response to Arguments

Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
